In today's freight transportation environment, you're constantly challenged to trim expenses and to do so with fewer people, leaner budgets and revenue that is getting harder to come by. Making the right software and technology choices for your company is critical.

With nearly 30 years of experience in motor freight software development, implementation and support, we can help you compete better by adding powerful tools to control your operations while you provide your customers the value-added services they have been asking for.

SOLUTION OVERVIEW

Motor Freight Revenue Accounting (MFRA) gives you benefits that save you time and money. You'll get the competitive edge:

- Calls for pickups appear on the dispatcher's screen as soon as they are saved
- Quotes and calls can be automatically converted to a freight bill
- Improve dispatch with manifests that are automatically produced in minutes
- Optimize routes with MS MapPoint
- Track deliveries, appointments, and CODs. Track equipment
- Produce detailed performance reports showing pickup and delivery dates/times. Comprehensive aging reports
- Provide summary and aging statements
- Interline billing and payables including D83 split option
- Comprehensive revenue history, tracing and reporting is included
- Motor Freight Web Connection (MFWC) provides online tracing/freight availability
- Motor Freight Zip Rating (MFZR)
- Motor Freight Ocean/Air Import/Export (MFIE) Master and House bills

BUILT ON MICROSOFT PLATFORM TECHNOLOGIES

We build our industry specific applications on Microsoft platform technologies to give you unified and comprehensive solutions that are cost-efficient, reliable and secure.

Enabling Technologies:

- MS SQL Server
- MS Server 2003 /2008
- MS Windows 7/XP
- MS Access 2003/2007
- MS Terminal Services

Benefits to you:

- Extend your existing IT infrastructure
- Lower overall total cost of ownership
- Familiar technology that is easy to use and support
